IN COLLABORATION WITH

Dear Members,

We are honored to welcome all of you to NASOCON 2025 which is scheduled to be held on 28th, 29th and 30th of November, 2025 at Cachar Cancer Hospital and Research Center, Silchar. We team CCHRC are honored to host this prestigious event for the year 2025.

The theme of this year's conference is "Evidence for Impact: Advancing Oncology in Resource-Limited Settings." In today's rapidly evolving healthcare landscape, there exists a critical need for enhanced data sharing practices and transparency in oncology. Real world data sourced from patient registries, electronic medical records, and observational studies, offer valuable insights into the effectiveness of cancer treatment and patient outcomes. This provides us, the Surgical Oncologists of the North East, a unique opportunity to come together with our data in a quest to enhance patient care and personal practice through conversation and collaboration.

This year, for the very first time in the history of North East, we are also collaborating with Collaborative Medical Oncology Group (CMOG), Chennai in association with Fenivi Research Solutions Private Limited to conduct their 4th National Conference on "Real World Evidence in Oncology (RWE)" in sync with 3rd Regional Conference of NASO.

We create history in bringing together two unique organisations, CMOG and NASO in an effort to enhance data sharing practices and spotlight our work as Surgical Oncologists of the North East India onto the national forefront.

Therefore, requesting all surgeons practicing oncology in the North East to come with your data and participate in this unique never before event to help us create history and pave the pathway towards excellence for future generations.
